

## **PUBLIC NOTICE**

### **Township of Hanover, Morris County**

**Morris County will hold a Public Information Meeting for a Bridge Replacement project. The Project will replace County Bridge 1400386, Whippany Road over the Whippany River in Hanover Township. The project includes removal of the existing bridge and the construction of a new widened structure. The project also includes reconstruction of the approach roadways, including sidewalks and guide rail extending approximately 200 feet from the bridge.**

**The project proposes to replace the existing bridge which is in poor condition with new rolled steel stringers and a reinforced concrete deck. The bridge deck will be widened to provide for four 12' wide lanes of traffic to cross the bridge. Sidewalks will be provided along both sides of the bridge, similar to the existing conditions. The vertical and horizontal geometry of the roadway will remain generally the same as the existing to reduce any impacts to the adjacent properties. Construction is anticipated to begin in 2011.**

**The Meeting will be held on Wednesday, April 21, 2010 from 4:30 until 8:00 p.m. at the Hanover Township Municipal Building, 1000 Route 10, Whippany, New Jersey.**

**The County welcomes all comments and any information that you may provide concerning the proposed project. Comments can be sent to: Morris County Department of Public Works, Division of Engineering, PO Box 900, Morristown, NJ 07963-0900, ATTN: Mr. Surinder Thapar, P.E., Assistant County Engineer.**
