

TRUNK OR TREAT GUIDELINES 2020

If the event plans to have 30 cars, possibly allow 30 families to attend per half hour.

Sidewalk chalk or tape can be used to place x's at least six feet apart where people are directed to wait to enter and wait between cars.

All trick or treaters over age 2 and their accompanying adults should wear a mask.

Skip the bowl of treats to pass out this year so the trick or treaters aren't all reaching into the same bowl. Instead, each car could have the decorated car with a table set up six feet in front of it.

Prepackaged snacks, candy, or treat bags only.

Social Distanting Trunk or Treat Check List

- Recruit a set number of cars.
- Create a timed entry schedule to figure out what your attendance limit will be.
- Post information about time slots, social distancing and mask wearing.
- Package candies or little favors in treat bags for easy distribution.
- Create signage to direct the flow of traffic.
- Draw arrows and x's on the ground to keep social distancing.
- Provide hand sanitizer.

Mask Up!
